

Ajay Narang

Senior Developer · Solution Architect · AI-Native Builder

Noida, India · +91 96543 74451 · ajaynarang.work@outlook.com · linkedin.com/in/ajay-narang-769a779

Most people building with AI are learning to ship production software at the same time. I spent seventeen years doing that first, and I build AI systems on top of that foundation now.

17 yrs

shipping production software

6 yrs

on-site in San Antonio, TX

100+

MCP tools in production

Open to senior developer, lead, solution architecture and AI platform roles, plus fractional and advisory engagements. Still hands-on daily.

TECH STACK

AI / agents	MCP, Mastra, Vercel AI Gateway, Anthropic, OpenAI, Gemini, LangChain, Langfuse, RAG, Inngest, pgvector
Frontend	React, Next.js, TypeScript, Angular, NgRx, Redux, Tailwind, shadcn/ui, TanStack Query, Zustand
Backend / APIs	Node.js, NestJS, Express, GraphQL, REST, BullMQ, Tyk Gateway, Microservices, Serverless
Mobile	Flutter
Data	PostgreSQL, Oracle, MongoDB, Redis, Prisma, pgvector
Platform	AWS, Terraform, Docker, Kubernetes, Vercel, GitHub Actions, Jenkins, Grafana / Loki / Tempo
Earlier (production)	Java Spring Boot, .NET / C#, ASP.NET, WPF

EMPLOYED · 2007 — 2026

Apr 2025 — Apr 2026	Senior Technical Manager, Solution Architect Publicis Sapient — Imperial Brands — Solution architect on a greenfield, multi-tenant, multi-language commerce platform spanning several markets: tenant isolation, content modelling, localisation and shared platform services on MERN with Salesforce as the data layer. — Owned the non-functional side: security, observability, CI/CD and Kubernetes delivery. Led a team of 6 and mentored engineering leads across workstreams.
Nov 2020 — Nov 2024	Advisor II, Lead Full-Stack Architect Fiserv India — Led a team of 8 across frontend and backend, owning architecture and staying hands-on in the codebase. — Delivered the New Member platform, saving an estimated \$1M for the launch credit union, alongside greenfield and brownfield work across the portfolio.
Jan 2014 — Sep 2020	Technical Lead Fiserv — San Antonio, TX — Six years on-site leading critical-path delivery for US credit unions, on releases where a bad deploy costs members real money. — Led greenfield and brownfield platforms across the portfolio: online banking, member onboarding, account processing and mortgage origination.
Mar 2007 — Jan 2014	Senior Software Developer Fiserv — Noida, India — Shipped credit-union and travel systems including Virtuoso Online Banking, Master Person 4, Teller Next Generation, Back Office Manager and FQSuiteCase.

INDEPENDENT · 2020 — PRESENT

2025 — present	Sally AI operating system for US trucking fleets · sally.appshore.in Small fleets run dispatch, compliance, documents and back-office through Sally instead of a stack of portals. 100+ MCP tools, model-agnostic across Mastra and Vercel AI Gateway, with an open OAuth MCP server so customers operate their fleet from Claude Desktop or ChatGPT under a full audit trail. Multi-tenant, live. Next.js · Flutter · NestJS/Express · PostgreSQL · pgvector · MCP · Mastra · AWS · Terraform
2025 — present	Tournax Multi-sport club operations platform · tournax.appshore.in Runs club tournaments and coaching end-to-end across fourteen sports. Entries, UPI payments, seeded draws, order of play, live scoring and standings, with an offline-capable match desk. Each sport carries its own rules from one registry. Next.js · Flutter · NestJS/Express · PostgreSQL · Prisma · Inngest · AWS
2023 — present	Farmlokal Organic-products commerce · farmlokal.com Backend architecture for an Indian D2C startup: catalogue, orders and fulfilment, designed so a small team could keep shipping without rebuilding the foundation. Next.js · Node.js/Express · MongoDB · AWS
2020 — present	GrocersPod Online retail, full build Built the platform end to end with the founder, across consumer, rider and admin surfaces. React · Node.js · Firebase · Vercel

SYSTEMS SHIPPED

2025 — 2026	Imperial Brands commerce platform. Greenfield multi-tenant, multi-language commerce platform across several markets: tenant isolation, content modelling, localisation and shared platform services on MERN with Salesforce as the data layer and a headless CMS. Publicis Sapient.
2019 — 2024	New Member Online. Greenfield member-acquisition platform: account opening, loan applications, identity verification, fraud checks, payments and SSO into online banking. Owned design and architecture from inception. Saved an estimated \$1M in onboarding cost for the launch credit union. Fiserv.
2019 — 2024	New Member Console. The back-office console credit-union staff use to run onboarding end to end: review, document requests, licence-scan capture, risk analysis and over-the-counter account opening. Fiserv.
2015 — 2024	RBFCU Online Banking. Online banking for one of the largest credit unions in Texas: accounts, transfers, bill payments, transaction tracking, on web and native. Still in production, used daily by tens of thousands of members. Fiserv.
2014 — 2024	Account Processing Extensions. Custom modules on Fiserv's core platform: eAlerts, secure member messaging, rates management and account wizard customisations across multiple credit unions.
2013 — 2014	Mortgage origination. Integrated Encompass mortgage LOS with the DNA core so loan officers could originate end to end without leaving the platform. Fiserv.

EDUCATION & RECOGNITION

2004 — 2007	MCA, Master of Computer Applications MD University, Rohtak B.Com (Hons) Shaheed Bhagat Singh College, Delhi University Excellence Level 3 (2012) · Annual Achiever Award (2009) · Shining Star Awards (2007–08), Fiserv
